

Differential Equations and Control Theory Kołobrzeg, September 23rd-26th, 2019

Dear colleague, it is our pleasure to present you the first announcement of the 4th International Conference "Differential Equations and Control Theory". It is an annual conference organized by Institute of Mathematics, University of Szczecin, and V. N. Karazin Kharkiv National University. It will take place in Kołobrzeg (Kolberg), Poland, 23 - 26 September 2019. The event is partially financially supported by University of Szczecin and by Polish Ministry of Science and Higher Education (Science Disseminating Programme). The conference aims to promote applications of differential equations and contemporary methods of control theory.

Confirmed invited speakers by far:

Sergey Dashkovskiy (Julius-Maximilians-Universität Würzburg, Germany)

Bronisław Jakubczyk (Institute of Mathematics of the Polish Academy of Sciences, Poland)

Jerzy Klamka (Silesian University of Technology, Poland)

Nguyen Khoa Son (Vietnam Academy of Science and Technology, Vietnam)

Michail Zhitomirskii (Israel Institute of Technology Technion, Israel)

Alexander Zuyev (Max Planck Institute for Dynamics of Complex Technical Systems, Germany)

IMPORTANT DATES:

Sunday, 28 July 2019 – Registration deadline,

Monday, 9 September 2019 – Short abstract submission deadline.

Further details will be sent in the forthcoming message.

Looking forward to see you in Kołobrzeg!

On behalf of the organizing committee,
Piotr Polak
